LEGEND®

LUXURY WITH INTENTION.

MASTERSPAS®

UNMATCHED LUXURY. UNRIVALED PERFORMANCE.

It starts with an idea. A dream. A fleeting thought about something greater. But an idea is ordinary until there's action. That's when the dream becomes real. It becomes early mornings when the world is still quiet. Late nights when others have already closed the door on the day.

Legends are built in moments no one sees — through discipline, refinement, and an unrelenting pursuit of what's better. With precision, intention, and purpose in every detail, Michael Phelps Legend Spas are created for those who know exactly what they expect from the at-home spa experience. For quiet moments of recovery. For focus. For restoration.

Balancing performance, advanced technology and refined luxury, every element is thoughtfully engineered so nothing feels excessive and nothing is overlooked. Powerful hydrotherapy supports recovery, and elevated design touches complement your space.

Legend Spas aren't about more for the sake of more. They're about fine-tuning. Refining. Personalizing. The result is a spa that feels effortless to enjoy and unmistakable in its quality — where comfort, control, and craftsmanship come together seamlessly. It's luxury with intention. Performance without compromise.

Complete your space with the kind of luxury you've always dreamed of and discover what it truly means to feel at peace.

FEATURES THAT MAKE A SPA LEGENDARY

From the minute you sit down, you'll feel the difference. Our engineers created seats that complement the contour of your body, making it easy to relax, naturally. Once you're wrapped in the comfort of the form-fitting seats, strategic jet placement delivers targeted hydrotherapy from head to toe.

Xtreme Therapy™ Seat

Twenty-two strategically placed jets with two individual whirlpools provide maximum hydrotherapy coverage for your entire body, helping to ease the day's stress.

StressRelief Neck and Shoulder Seat™

Our exclusive reverse-molded neck and shoulder seat features specially designed jets that are positioned downward, putting your neck and shoulders under the jets for the ultimate tension-relieving massage.

Master Force™ Bio-Magnetic Therapy System

Get the benefits of magnetic therapy in the comfort of a spa. We strategically place magnets behind the StressRelief Neck and Shoulder Seat to address pressure points throughout your body.

Xtreme Therapy™ Lounger

Alleviate tension with one of our most advanced therapeutic experiences. The Xtreme Therapy Lounger uses targeted jets to ease back tension, support tired legs, and gently massage pressure points in the feet.

Master Blaster® Foot Therapy System

Dual jet clusters with 28 individual nozzles create a powerful foot massage, driven by a dedicated pump. Adjust the diverter to shift from energizing relief to a more soothing experience.

Vac-Formed ABS Pan Bottom

Our state-of-the-art fabrication adds another layer of protection to your hot tub. This technology not only makes the base more durable but helps improve energy efficiency and expands the lifespan of your spa.

THE 30TH ANNIVERSARY SPECIAL EDITION LSX 30

Unrivaled hydrotherapy meets personalized relaxation in the LSX 30. The whirlpool-style captain's seat delivers an encompassing massage experience, with customizable therapy found only in this special edition spa. Powered by a variable-speed motor, the massage pressure can be finely tuned to match exactly what your body needs. Wraparound seating, preset massage programs, and a full-size lounge complete the experience, offering multiple ways to relax and recover. Created as a 30th Anniversary Special Edition, the LSX 30 reflects the thoughtful engineering and premium hydrotherapy that define MasterSpas.

SMARTER DESIGN, GREATER EFFICIENCY

Michael Phelps Legend Spas are built to keep the heat inside. The main component of MasterSpas' energy-efficient design is our superior insulation. Other companies use urethane spray foams, which can break down and lose their insulating properties over time. We only use high-density foam that lasts the lifetime of your spa. It locks in heat while keeping out cold and moisture, making for a consistent water temperature — even in the winter. The result is a comfortable spa experience in all climates that comes at a significant savings to you.

PREMIUM INSULATION BENEFITS:

- Prevents heat loss
- Resists mold & mildew
- Reduces vibrations & noise
- Produces no ozone off-gassing
- Meets the most stringent energy standards

All-Encompassing Thermal Barrier

Our foam insulation expands to 100 times its volume in seconds, filling every crevice to tightly seal all areas under your hot tub's shell.

Safer for the Planet & You

Our environmentally friendly foam produces no harmful gases.

Deluxe Tapered Covers

A well-fitted cover acts as an insulating barrier between the water and air, helping to retain heat and improve energy efficiency. MasterSpas covers feature a thick, tapered foam core and are precision-engineered to fit each model, ensuring optimal performance and durability.

CONVENIENT, CLEAN, COMFORTABLE

Whether it's for relaxation or health benefits, your time and concentration should go toward being in your hot tub. With our advanced water care systems, your spa can always be at its peak, with less effort on your part.

EcoPur® Charge Master Core Technology

EcoPur Charge is an exclusive filtration system using the same multi-stage techniques as nature. A unique blend of copper and zinc eliminates most microorganisms and reduces heavy metals, leaving water that's sparkling clean, softer, and free of harsh chemical smells.

Master Clear® Salt System

A saltwater upgrade is a major way to enhance your hot tub ownership experience. The Master Clear Salt System is designed to take the legwork and the guesswork out of maintenance. It routinely monitors sanitizer levels and only activates when necessary. At that point, it automatically generates sanitizer to regulate levels. This saves you time, means you won't waste chemicals and helps protect your spa's components when operated in accordance with the Master Clear Salt System Manual. The water also feels silkier and more luxurious and is gentler on your skin and eyes. There's even an app for easy monitoring and adjustments from your phone.

QuietFlo Water Care System™

This optional circulation pump operates during scheduled filtration cycles and as needed to move water through the spa — even when the jets aren't running — helping keep the water clean and clear. This circulation also helps maintain water temperature while the spa is in standby mode, improving energy efficiency and ensuring it's warm and ready whenever you are.

PREMIUM OPTIONS

Fusion Air Sound System

Our built-in spa stereo gives you immersive sound thanks to topside speakers and a powerful subwoofer. You can easily connect to any audio source using Bluetooth and control it with a wireless Bluetooth remote.

Master Clear Salt System

This system simplifies hot tub maintenance by helping automatically regulate chlorine levels, delivering silky, skin-friendly water and offering easy control through a mobile app. See page 11 for more details.

MORE THAN A GOOD FEELING

HOT TUB BENEFITS

The positive health effects of hot tubs are wide ranging and far reaching. Explore them below to see what a spa can do for your well-being.*

Reduce Stress & Lower Anxiety

Studies have shown numerous mental health benefits from hyperthermic soaking, including reducing stress, lowering anxiety and even decreasing depression symptoms. The combination of hot water and massage jets impacts the autonomic nervous system to promote deeper relaxation.

Relieve Acute & Chronic Pain

Hot water reduces inflammation and increases blood flow to the muscles. It can also prevent painful muscle contractions. And the massage jets can target tension-filled muscles.

Increase Mobility

Soaking in a hot tub produces hydrostatic pressure on the body, which helps decrease joint swelling. Because of the water's buoyancy, the joints feel less pressure, too.

Improve Sleep

Our bodies naturally adjust in temperature throughout the day. One standard change is a dip shortly before bedtime. Using a hot tub can encourage that cycle. That, along with a spa's relaxation benefits, can promote easier slumber.

HOT TUBS CAN HELP PEOPLE WITH THE FOLLOWING:

Chronic headaches & migraines

Supports mental health (such as depression & generalized anxiety disorder)

Those recovering from sports injuries and orthopedic surgery

Arthritis

Sciatica

Fibromyalgia

Chronic lower back pain

RELAX. IT'S MASTERSPAS.

For over 30 years, MasterSpas has been helping people create customized sanctuaries. We've crafted lines of hot tubs and swim spas that aren't just backyard soakers, but places for families to come together, friends to connect and individuals to relax and recharge. We're at the forefront of the industry, pushing spa technology and design so that it's more comfortable, beautiful and efficient. Our goal is for each customer to find respite with our products — however that looks for them. So whether you want a place to unwind, a healthy daily ritual or a communal gathering spot, MasterSpas has the solution.

Rooted in American Craftsmanship

Since our beginning, MasterSpas has been committed to manufacturing in the USA. All our spas are made and assembled in America with domestic and foreign components. We are a fixture in our community, employing hundreds of workers at our state-of-the-art 614,000 SF manufacturing facility in Fort Wayne, Indiana. And we're proud to say that MasterSpas is the largest swim spa manufacturer in the world and the largest manufacturer of hot tubs built in the USA.

MASTERSPAS CARES

Helping others live a better life isn't just why we make the products we do — it's part of our value system. We began MasterSpas Cares as a way for us to give back and support others toward a better tomorrow. Through corporate donations and matches, dealer contributions and sales promotions, we're able to help the following wonderful charitable organizations that focus on worthy causes and people.

Leads the way the world understands, treats and defeats childhood cancer and other life-threatening diseases

Provides housing for injured veterans and first responders, as well as the families of those killed in the line of duty

Improves the quality of life for people living with lupus through research, advocacy and support

Funds research to find a cure for breast cancer and improve therapies for the most difficult-to-treat types of the disease

Promotes healthy active lives, water safety, and mental wellness, especially for children, by expanding access to swimming through the Boys and Girls Club of America and Special Olympics International

Searches for a cure for Parkinson's disease and ensures the development of improved treatments for the neurological disorder
