SPAS

RELAXATION NEVER FELT SO PERSONAL

MASTERSPAS®

MAKE ANY HOUR MAGIC HOUR

Twilight is that time right before the sun rises, or right after it sets, when the sky is illuminated by scattered light. It's often called magic hour because of the beautiful colors it produces. Twilight marks when a day is about to begin, full of possibilities — or when it's just ending, closing another chapter.

Whether you're preparing for a long day ahead or rewarding yourself for getting through one, each moment is an opportunity for rejuvenation. Twilight Spas are the perfect way to do that. With each soak, you give your body, mind, and spirit the refresh they deserve. This collection combines state-of-the-art features with premium options so you can make your hot tub exactly what you want it to be. From targeted therapy to beautiful aesthetic touches, tranquility will surround you as soon as the water does. What's more, you'll find these models are easy to maintain, environmentally friendly and efficient to run. That means there's no added stress that comes with owning a Twilight Spa. All it does is take your stress away.

Discover the serenity you've been searching for. Step into a Twilight Spa and find your personalized oasis.

CREATED WITH YOUR BODY IN MIND

Twilight Spas have been crafted, not only by engineers, but by people who know how the human body works and what it responds to. We've designed these hot tubs to address exactly what you need and created technologies that help take the tension away within minutes. The best part is they come standard in each Twilight Spas model.

StressRelief Neck and Shoulder Seat™

Our exclusive reverse-molded neck and shoulder seat features a ledge with specially designed jets that are positioned downward, putting your neck and shoulders under the jets for the ultimate tension-relieving massage.

Master Force™ Bio-Magnetic Therapy System

Magnetic therapy has been used for centuries to relieve pain, improve circulation, reduce swelling, and alleviate stiffness. With our exclusive Master Force Bio-Magnetic Therapy System, you can get those benefits in the comfort of a hot tub. We strategically place magnets behind the StressRelief Neck and Shoulder Seat to address pressure points throughout your body.

Master Blaster® Foot Therapy System

In the footwell, dual jet clusters feature 28 individual nozzles. Powered by a separate pump, it offers one of the industry's most comprehensive foot massages. If you want something more serene and gentle, all you need is a turn of the diverter.

CONVENIENT, CLEAN, COMFORTABLE

Whether it's for relaxation or health benefits, your time and concentration should go toward being in your hot tub, not working on getting pH levels just right. With our advanced water care systems, your spa can always be at its peak, with very little effort on your part.

EcoPur® Charge Master Core Technology

EcoPur Charge is an exclusive filtration system using the same multi-stage techniques as nature. A unique blend of copper and zinc eliminates most microorganisms and reduces heavy metals, leaving water that's sparkling clean, softer, and free of harsh chemical smells.

Master Clear® Salt System

A saltwater upgrade is a major way to enhance your hot tub ownership experience. The Master Clear Salt System is designed to take the legwork and the guesswork out of maintenance. It routinely monitors sanitizer levels and only activates when necessary. At that point, it automatically generates sanitizer to regulate levels. This saves you time, means you won't waste chemicals and helps protect your spa's components when operated in accordance with the Master Clear Salt System Manual. The water also feels silkier and more luxurious and is gentler on your skin and eyes. There's even an app for easy monitoring and adjustments from your phone.

QuietFlo Water Care System™

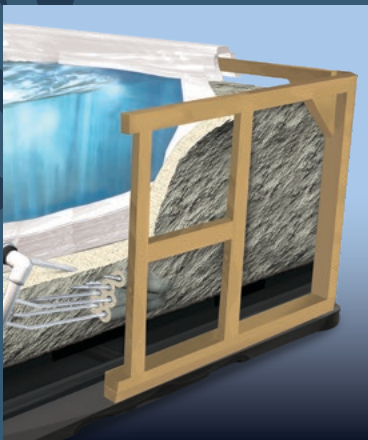

This optional circulation pump operates during scheduled filtration cycles and as needed to move water through the spa — even when the jets aren't running — helping keep the water clean and clear. This circulation also helps maintain water temperature while the spa is in standby mode, improving energy efficiency and ensuring it's warm and ready whenever you are.

SMARTER DESIGN, GREATER EFFICIENCY

Worrying about utility bills does not help relaxation. That's why Twilight Spas are built to keep the heat inside. The main component of MasterSpas' energy-efficient design is our superior insulation. Other companies use urethane spray foams, which can break down and lose their insulating properties over time. We only use high-density foam that lasts the lifetime of your spa. It locks in heat while keeping out cold and moisture, making for a consistent water temperature — even in the winter. The result is a comfortable spa experience in all climates that comes at a significant savings to you.

PREMIUM INSULATION BENEFITS:

- Prevents heat loss
- Resists mold & mildew
- Reduces vibrations & noise
- Produces no ozone off-gassing
- Meets the most stringent energy standards

All-Encompassing Thermal Barrier

Our foam insulation expands to 100 times its volume in seconds, filling every crevice to tightly seal all areas under your hot tub's shell.

Safer for the Planet & You

Our environmentally friendly foam produces no harmful gases.

Deluxe Tapered Covers

A well-fitted cover acts as an insulating barrier between the water and air, helping to retain heat and improve energy efficiency. MasterSpas covers feature a thick, tapered foam core and are precision-engineered to fit each model, ensuring optimal performance and durability.

BEAUTIFUL INSIDE AND OUT

Soft exterior lighting brings the cabinet's modern design to life. The illuminated MasterSpas logo remains lit as a signature that the spa is ready and waiting, while a subtle light bar activates at night to highlight the refined design.

PREMIUM OPTIONS

Fusion Air Sound System

Our built-in spa stereo gives you immersive sound thanks to topside speakers and a powerful subwoofer. You can easily connect to any audio source using Bluetooth and control it with a wireless Bluetooth remote.

Vac-Formed ABS Pan Bottom

Our state-of-the-art fabrication uses thermal technology to create a more durable base that retains its shape with temperature variations and keeps heat in and pests out.

Master Clear Salt System

This system simplifies hot tub maintenance by automatically regulating chlorine levels, delivering silky, skin-friendly water and offering easy control through a mobile app. See page 7 for more details.

QuietFlo Water Care System

Our advanced circulation pump moves water through the spa — even when the jets are not running — helping water quality while maintaining heat and reducing energy costs. See page 7 for more details.

MORE THAN A GOOD FEELING

HOT TUB BENEFITS

The positive health effects of hot tubs are wide ranging and far reaching. Explore them below to see what a spa can do for your well-being.*

Reduce Stress & Lower Anxiety

Studies have shown numerous mental health benefits from hyperthermic soaking, including reducing stress, lowering anxiety and even decreasing depression symptoms. The combination of hot water and massage jets impacts the autonomic nervous system to promote deeper relaxation.

Relieve Acute & Chronic Pain

Hot water reduces inflammation and increases blood flow to the muscles. It can also prevent painful muscle contractions. And the massage jets can target tension-filled muscles.

Increase Mobility

Soaking in a hot tub produces hydrostatic pressure on the body, which helps decrease joint swelling. Because of the water's buoyancy, the joints feel less pressure, too.

Improve Sleep

Our bodies naturally adjust in temperature throughout the day. One standard change is a dip shortly before bedtime. Using a hot tub can encourage that cycle. That, along with a spa's relaxation benefits, can promote easier slumber.

HOT TUBS CAN HELP PEOPLE WITH THE FOLLOWING:

Chronic headaches & migraines

Supports mental health (such as depression & generalized anxiety disorder)

Those recovering from sports injuries and orthopedic surgery

Arthritis

Sciatica

Fibromyalgia

Chronic lower back pain

Source: American Journal of Physiology—Regulatory, Integrative and Comparative Physiology (2025)
Always consult with a doctor before starting any new health routine.

"One of the best purchases I have ever made! Due to a couple of car accidents, I was looking for a hot tub to relax in. Little did I know the Twilight 7.2 is like having my own massage therapist. This hot tub has really saved me from years of pain."

-GAY P., FLORIDA

RELAX. IT'S MASTERSPAS.

For over 30 years, MasterSpas has been helping people create customized sanctuaries. We've crafted lines of hot tubs and swim spas that aren't just backyard soakers, but places for families to come together, friends to connect and individuals to relax and recharge. We're at the forefront of the industry, pushing spa technology and design so that it's more comfortable, beautiful and efficient. Our goal is for each customer to find respite with our products — however that looks for them. So whether you want a place to unwind, a healthy daily ritual or a communal gathering spot, MasterSpas has the solution.

Rooted in American Craftsmanship

Since our beginning, MasterSpas has been committed to manufacturing in the USA. All our spas are made and assembled in America with domestic and foreign components. We are a fixture in our community, employing hundreds of workers at our state-of-the-art 614,000 SF manufacturing facility in Fort Wayne, Indiana. And we're proud to say that MasterSpas is the largest swim spa manufacturer in the world and the largest manufacturer of hot tubs built in the USA.

MASTERSPAS CARES

Helping others live a better life isn't just why we make the products we do — it's part of our value system. We began MasterSpas Cares as a way for us to give back and support others toward a better tomorrow. Through corporate donations and matches, dealer contributions and sales promotions, we're able to help the following wonderful charitable organizations that focus on worthy causes and people.

Leads the way the world understands, treats and defeats childhood cancer and other life-threatening diseases

Provides housing for injured veterans and first responders, as well as the families of those killed in the line of duty

Improves the quality of life for people living with lupus through research, advocacy and support

Funds research to find a cure for breast cancer and improve therapies for the most difficult-to-treat types of the disease

Promotes healthy active lives, water safety, and mental wellness, especially for children, by expanding access to swimming through the Boys and Girls Club of America and Special Olympics International

Searches for a cure for Parkinson's disease and ensures the development of improved treatments for the neurological disorder
